

## EIGHT ORDINANCES ARE CONSIDERED BY BOARD OF TRUSTEES MONDAY

### Controversy Developed Over Classification of Amusement Places; Action on Measures to Be Taken Later.

Eight ordinances designed to meet immediate problems were discussed and considered by the board of trustees in an adjourned session in the city hall Monday evening. The discussions were largely on technical points, such as the power of the city in certain matters. City Attorney J. F. Davis, who has framed the ordinances, advised the board as to procedure.

In only one instance, that of the proposed amusement ordinance, designed to regulate and tax all public amusements, was there a real controversy developed.

A. J. Eschebach, proprietor of the Royal Theater and a member of the board, expressed his disapproval at having his business classified with soft drink parlors, bowling alleys, public pleasure gardens and the rest. He disclaimed any objection to paying a tax, but demanded that a separate classification be made for theaters. After considerable bickering between Eschebach, City Attorney Davis and other members of the board, it was decided to take the entire measure under consideration for action at a future time.

The other proposed ordinances in the order in which they were considered were:

1. Naming of mythical road now called the Paradise Valley highway. Change to Hillside boulevard suggested by Mayor Jensen of Lawndale. Filed until road is completed.

2. An ordinance to repeal the part of ordinance 119 dealing with the bonding of soft drink parlors.

An objection has developed based on the contention that in case bondsmen refuse to pay fines when the proprietor of a soft drink place disobeys the law a suit by the city is necessary. By placing the proprietor under direct license of the board each six months and subjecting him to fine directly this danger of suit will be done away with. Other provisions of the ordinance describing the structure remain practically the same.

3. Tree ordinance. Gives the city marshal the right to order trees cut down which are partly on public and partly on private property or entirely on public property which interfere with sidewalks and sewers.

4. Amusement ordinance. Regulates and provides for the payment of a license fee by moving picture theaters, pool and billiard parlors, bowling alleys, public pleasure gardens, museums, circuses, public dance halls.

5. Fire ordinance. To be considered with zoning and building ordinances.

6. Zoning ordinance. To be discussed in a public meeting before action can be taken by the trustees.

7. Building ordinance. Now in the hands of the Manufacturer's Association committee for its approval.

These ordinances, according to City Attorney Davis, are designed to meet the growing needs of the city. They will be considered individually in forthcoming meetings of the trustees and submitted to a vote by that body.

## POLICE CHIEF TO REGULATE BUSINESSES

A motion by the city board of trustees in a previous meeting to order closed a barber shop operating on Commercial avenue and a shoemaker's shop on Olive avenue was rescinded by vote of the board in adjourned session Monday evening. Both businesses were left in the hands of Chief of Police Louis Belloni for regulation pending the passage of the new zoning, building and fire ordinances by the city.

A. C. Buehler, representing the Merchant's Association, lodged a protest against such action declaring it was unwelcome to the board to set such a precedent. Extenuating circumstances were cited by

the board in the case of the barber of Commercial avenue who was described as a high school boy struggling to get an education. It was generally understood he may operate his single chair shop in the residence district only during the period he is going to school. When that time is finished he will be forced to close and move into the business district.

Mayor McNellis raised the question of the pending budget for the city for the coming year and explained the advantages of calling for bids on job work. City Clerk McSweeney explained that most of the printing for 1925 had been done.

## \$25 CASH OFFER CLOSES; MRS. ASA P. BEALL WINS BY SMALL MARGIN

In a competition, the closeness of which was remarkable, Mrs. Asa P. Beall won the special \$25 cash prize offer for the seven-day period ending December 10, which closed at 10 o'clock Wednesday night.

Both districts saw competition keen and close, but it remained for district No. 1 to stare the most spectacular race of all, with competition in district No. 2 extremely close and strong. In district No. 2 the competition was strong and would have required much less than a six-year subscription to have changed the result—in fact, the difference was the matter of only three years in subscriptions. Other runners up were mighty close to attaining their objective. In another instance just a couple of years would have changed the complexion of the winning column so close was the special competition.

Old and new subscriptions counted on the \$25 special offer. In this competition it might be well to say that a candidate with less points than the special prize winner secured could, and in some instances are, standing better from a credit standpoint than the winner of the \$25. A little mathematics will easily demonstrate this point for you. So get this: the fact that a candidate wins \$25 in extra money does not make it follow that the candidate is an

outstanding leader in his or her district.

The winner of the \$25 special is announced today, but the number of points made by the winner will not be announced before the close of the campaign on January 17.

The \$25 special prize race is over and will be awarded today. The special competition is history. Nine days from today, at midnight, the big \$50 extra special prize, and the biggest credits of the entire campaign, end. Candidates have just a little more than one week to go, nine days to "cinch" for themselves the prize of their choice. Today is anybody's race. If there is a single candidate including the winner of the \$25 special prize, who imagines he or she has a lead to boast about, that person is bound to be disappointed.

### TWO SPEEDERS FINED

D. F. Driscoll and Arthur Lait, both of San Francisco, paid fines for speeding through South San Francisco, in Judge Cunningham's court yesterday morning. Driscoll was charged with traveling at 25 miles an hour through an intersection and fined \$5. Lait pleaded guilty to speeding through an intersection at 34 miles an hour and of passing another car at the crossing. He paid \$30.

## FORGER TAKEN AT BAYSHORE BY LOCAL POLICE

### Man Who Forged Endorsement Held to Superior Court

Capture of Luigi Schivo, a man with many aliases, accused of forgery in Contra Costa and San Mateo counties, was effected Tuesday afternoon at Bayshore by Chief of Police Louis Belloni and Officer Vincent Bianchini. Schivo was carrying an over-sized razor when the officers took him into custody.

He is charged with having forged the signature of Mo. Perutti to a pay check of \$77.50 issued by the Earl Fruit Company on the bank of Alex Brown in Walnut Grove. The check was cashed by F. Calisi, driver for the New San Francisco Laundry, who had known Schivo in the Walnut Grove district, where they were both employed. The police believe that Schivo has performed several other forgery jobs in different parts of the state.

Schivo was arraigned before Recorder E. E. Cunningham on Wednesday morning and held to the superior court on a felony charge. His bail was fixed at \$1,000 or \$2,000 bond, but he was unable to raise either sum.

The sheriff of Contra Costa county is expected to arrive today to identify Schivo. The prisoner was taken to Redwood City yesterday afternoon.

## FREIGHT AND PASSENGER SERVICE IN SOUTH SAN FRANCISCO

Forty-nine (49) passenger trains stop daily in South San Francisco to discharge and take on travelers, according to A. E. Morgan, Southern Pacific passenger agent here. It is doubtful if any city between San Francisco and San Jose can boast of more train service than this.

A new service has recently been added for local shippers who send products to Los Angeles. A freight train that reaches Los Angeles in 41 hours, 15 minutes, has been put on. It leaves Bayshore at 11 p. m. each day and all freight moved out of the local yards by 6 o'clock for the southern territory is switched on to the through freight at Bayshore, where the train is made up. It is now possible for factories to land their goods in Los Angeles the morning of the second day after shipment.

Seventy-six (76) carloads of freight are received and shipped from this city every working day of the year, according to the local chamber of commerce.

Figures are produced to show that 13,380 carloads of freight are received here annually. The total weight contained in arriving cars is 709,808,436 pounds. Shipped from this city annually are 9,720 carloads, with a total of 508,809,436 pounds contained therein. The grand total of incoming and outgoing freight is 23,100 cars annually, containing 1,211,575,480 pounds, or, 76 carloads per working day, with an average weight of 52,449 pounds.

Both the Southern Pacific and the South San Francisco Belt Line provide local shippers with day and night service.

## CITY'S NAME TO APPEAR ON NEW S.P. TIME TABLES

South San Francisco will be printed in the list of prominent cities appearing on the face of the new time tables of the Southern Pacific Company in the future. A. E. Morgan, local agent, has been trying for months to have the name of this city included on the covers of the pocket time tables given at all depots and have announced yesterday that in the next set printed South San Francisco will appear under San Francisco and before Burlingame.

The new schedules are now in the hands of the printers and will appear late this month.

## No-Parking Law To Be Enforced Belloni Says

Any machine found parked on the streets or alleys in the business district after 2 a. m. will be tagged or towed away to the nearest garage at the expense of the owner, Chief of Police Louis Belloni announced yesterday.

The chief says that machines parked on the streets will be tagged and their owners will have to appear to answer in court. Those parked in alleys will be towed to the nearest garage at the expense of the owner who will also have to appear in court. The new traffic ordinance recently passed by the city trustees forbids parking of cars on the streets after 2 in the morning and it will be strictly enforced the police department says.

The others in the house at the time were released with the exception of Jesus Torres, Mexican, who was carrying a stiletto with an eight-inch blade in a shoulder sheath. He was booked for carrying concealed weapons. Monday afternoon he was taken to Redwood City by Chief of Police Belloni to begin serving 90 days, the sentence imposed by Judge Cunningham.

Thayer, general manager. C. B. Stone of the Crocker Estate Company, whose property adjoins this city on the northeast, said that his company had prepared to deed the land need for the road and the deed would be filed this week. The next step is for the city to grant the county permission to use the property for a road, John Coleberd informed the committee.

The new artery will mean a connecting link for the new Bayshore highway and an extra route into San Francisco. Several miles will be cut off for traffic from down the peninsula.

Chairman Ben H. Truax of the Paradise Valley road committee, was in the chair, with Pete Petroff, J. W. Coleberd, and Harry J. Borba as the other members present. Mayor Jensen of Lawndale attended on behalf of his city and expressed pleasure at the progress made.

This was the last league game the girls will play. They were disappointed in the outcome of the Redwood City game when they were defeated by a score of 11 to 10, their first defeat of the season. This was probably due to the fact that one of their star players, Miss Anita Varni, injured her ankle during the early stages of the game.

Harold Varni and Aurelio Bertetta were the stage hands who also provided the audience with more than a few laughs. The singing of Miss Mary Mooney, accompanied by Miss Florence Chilton, was enjoyed, as was shown by the applause which they received. Raymond Batz played several jazzy piano selections. ## Let Santa Claus Bring You to South San Francisco

### To the Commuter:

The money you have spent this year for transportation would have purchased your Christmas gifts.

The dollars you have wasted commuting would have furnished a large installment on a home of your own.

The pay check you have spent elsewhere, if distributed where you earned it, would have added materially to the great progress of this city and to your own material prosperity.

If you let Santa Claus bring you to South San Francisco this Christmas your 1925 Yuletide will be a far happier one.

## REAPPORTIONMENT AND HIGHWAYS

The Governor's Stand on Either Question Is Not Related to His Attitude Toward the Other; but We Hope He Is for Both

Because we Northern Californians are so extremely desirous of having certain highways built at state expense, we are inclined to think harshly of Southern California for its manifest opposition to the plan. But can we blame Southern California when we remember how Northern California has acted (or rather refused to act) in the matter of reapportionment for legislative representation?

To be sure there is a difference between the two cases. And that difference is in the South's favor. In opposing our road program, the Southern Californians are acting within their legal rights, no matter what we may say of other phases of the question. But in blocking the reapportionment demanded by the South, Northern California is within neither legal nor moral rights.

Under the law reapportionment is mandatory as a result of shifts in the population ratios revealed by the 1920 census. The fact that reapportionment would be to the advantage of Los Angeles over San Francisco has nothing to do with the merits of the case. As long as the law makes population the basis of legislative representation, the legislature has no legal option but to reapportion. Yet two legislatures since the 1920 census have failed to do so, as a result of the malicious design of some of our northern representatives, and for reasons that are wholly indefensible.

Governor Richardson has come out again openly and loudly in his declaration of intention to urge reapportionment during the coming session of the legislature. Those who are ever in search for a concealed motive are linking this stand with the highway issue and conjecturing as to its significance.

"Does this mean that the governor is lining up with the South against the North and will, therefore, oppose the road program the Northerners want? Or does it mean that the governor is trying to get in strong with the South on the reapportionment question in order to offset the effect of lining up with Northern California on the highway building program?" These are questions that are being asked.

But our guess is that neither question covers the case. The governor urges reapportionment because he knows this is the only right course. We who are convinced that support of the highway commission's road building proposal is also the only right course are hoping that the governor will be of like opinion, and will be as outspoken in his approval of this as he has been of the reapportionment plan.

## THE CHRISTMAS SEALS

Christmas is nearing and Christmas seals are on sale. The organization in charge of the preparation and distribution of these seals is perfecting its plans for the 1925-26 season. It has to work that far ahead if it is to be ready. The printing order alone must take care of a billion and a quarter seals for a single year. All this immense undertaking has grown out of the idea of a Danish postal clerk twenty-one years ago. Before him, Christmas seals meant merely a cheerful decoration; now they mean participation in a great fight against tuberculosis. When an American uses the words, "Christmas seals," he thinks of the tuberculosis fight—and buys the seals.

The Christmas seals not only are the direct source of large sums of money for the campaign against tuberculosis, but they aid in arousing and maintaining interest in that campaign and in making thousands feel a direct contact with it through the purchase and use of the little stickers on their Christmas mail. Seventeen years ago, when the first Christmas seals were sold in the United States, there were less than 100 public health tuberculosis associations; now there are more than 600. Hospital beds for those afflicted with the disease have increased from 10,000 to more than 70,000. There are more than 3,000 open-air schools for tubercular children, where there were none.

For the first time in the history of the Bowery in New York there was so much food on Thanksgiving that its dispensers had to fare forth into the highways and byways to find guests outside the regular habitues of that thoroughfare's missions. The reason may be a more generous outpouring of good-will, or the dawn of better times. Perhaps both were factors.—Oakland Tribune.

## ROADS TO PROGRESS

A man who has lived in South San Francisco for a number of years has heard to remark yesterday that he had never seen so much activity in the city during all his days here. He was referring specifically to the great amount of building now going on and subsequently to the stimulation of public interest in the city and in its problems.

With the Bayshore road building on one side of the city and the mythical Paradise Valley road about to emerge into the world of reality in another direction, progress is being provided with two new ways to enter the city.

Several dozens of our citizens are awake to the fact that prosperity is heading in this direction. These citizens evidence their desire to assist in clearing the way by attending public meetings and acting on the committees to which they are appointed. There are hundreds more who should interest themselves in the development of the city's projects.

Another general meeting has been called by the chamber of commerce for next Thursday evening. Reserve the date, be there and learn what is going on and what your part is in the program.

## ONE MAN'S EFFORTS

Efforts put forth by A. E. Morgan, Southern Pacific agent, to have South San Francisco listed on the covers of time tables of the railroad which were realized in the issue of the December schedules should be recognized by the city. Advertising goes a long way, whether it is a city, a business or an individual that is being heralded. The name South San Francisco on the pocket time-tables of the peninsula lines means hundreds of dollars of free advertising to the city.

It is also worthy of note that the railroad has attempted to improve the Swift avenue crossing within the past week by dumping some loose dirt between the rails to fill holes in the pavement. It is hoped the dirt filling is only a temporary measure.

## STRESSING STATE HISTORY

Special emphasis of California history is urged in the schools of the state during the next year by Will C. Wood, state superintendent of public instruction, because of the celebration of California's diamond jubilee planned in 1925 in honor of the seventy-fifth anniversary of the state's admission into the Union. That stress on California history should be placed in the schools of the state is a point which few will dispute. But the stress should be permanent, not limited to any one year, regardless of the historic significance of that year.

Indeed, the golden jubilee celebration will justify itself for the labor that enters into it only if it gives inspiration enough to create through its reviving effect a permanent popular interest in the story of the state's political development and its pioneers. If emphasis on California history is an advisable school policy in any year, it is advisable as a continuing policy. If knowledge of such history has no permanent value as part of a child's education, the schools would not be justified in giving it stress in the golden jubilee year. But it has lasting value. It should be an integral part of a Californian's education always.

## BIG FIGHT COMING

A fight in the legislature next month over the highway building campaign, in which our pet Bayshore road is the biggest item, looms as more than a possibility. It can be almost counted on. While we have to our advantage the fact that the legislative representatives of eleven bay counties are pledged to support the highway program solidly, news dispatches from Southern California tell of similar solidification of strength on the other side of the question.

Having her own highway system quite thoroughly developed, Southern California is not extremely interested in the building of the much needed roads this far north, and is not deeply affected by the figures showing that San Francisco has not received her fair share of highway assistance in the past. It is the ratio of returns to investment as represented in the pending proposals only that Los Angeles and her tributaries are considering at this stage. The Southern Californians point out that under the plan submitted the Los Angeles district would be paying 58½ per cent of the gasoline tax increase, while receiving only 19 per cent of it back in the form of highway improvements.

As we said above, a fight looms as more than a possibility.

HIGH SCHOOL CIRCUS  
PROVES BIG SUCCESS

The High School Circus proved to be a huge success, both as a financial enterprise and as a source of considerable amusement, even though it was handicapped by stormy weather conditions.

Approximately 500 persons were present, enriching the coffers of the High School Student Body to the extent of about \$450. The main show was the feature of the evening and caused the auditorium to be crowded to capacity. The various other concessions and side shows were quite attractive and the dance, especially, was a big success.

SENIORS INSTIGATORS  
OF NOVEL IDEA

For the purpose of securing funds for their section of the Iris, the South San Francisco High School annual, the Seniors of the '25 class have come upon this novel idea: That in the coming Christmas a day shall be put aside and called Labor Day, in which each student shall secure some sort of work, the proceeds of his or her efforts to be turned over to the class treasury in order that they shall have sufficient funds to cover their quota.

This method of raising funds has never been used before to our knowledge and from all viewpoints it seems to have all of the earmarks of success.

## EXPRESS APPRECIATION

The advertising committee of the South San Francisco High School Circus wishes to thank the people of South San Francisco for their hearty co-operation in advertising the circus and especially we wish to express our appreciation to Mayor McNellis for his wholehearted co-operation in all things pertaining to the high school, to Fire Chief Truax, and William Ely, for their able assistance in placing the big sign above the intersection of Grand and Linden avenues, and to J. H. Potter and W. J. Martin for allowing us to fasten the sign to their buildings. The slides for advertising the circus which Mr. Eschbach put on for us at his theater contributed much to the success of the affair, as did also the truck which Robert Scott put at the disposal of the band in the circus parade. We thank you.

ANNEX PROPOSED  
FOR HIGH SCHOOL

The campaign is on for an annex to the high school. At present the crowded condition of the high school retards the necessary progress not only in academic and commercial work but in vocational education. The present shop or manual training room is not large enough to accommodate the students who wish to acquire a working knowledge in shop work. At the beginning of last semester several students were turned away on account of the lack of accommodations. The domestic science department is existing only under very trying conditions. At present the sewing room is in the basement and the students are hampered by lack of space and sunlight.

All of these things will be remedied if the proposed bill is passed in the coming election in January. Funds sufficient to cover the expenditures necessary to

facilitate these changes are to be voted for at this election. We feel that no one is better qualified than the student to offer criticism and information on the existing conditions. Hence we ask the students to get behind this bill and get the folks to put it over on election day.

How About It, Miss Clifford?

The Ford is my car.  
I shall not want another.  
It maketh me to lie down in wet places,  
It solleth my soul,  
It leadeth me into deep waters,  
It leadeth me into paths of ridicule for its name's sake,  
It prepareth a breakdown for me in the presence of mine enemies,  
Yea, though I run through the valleys, I am towed up the hill,  
I fear great evil when it is with me;  
Its rods and its engines discomfote me.  
It annoiteth my face with oil;  
Its tank runneth over.  
Surely to goodness, if this thing follow me all the days of my life, I shall dwell in the house of the insane forever.

SENIOR CLASS PARTY  
AT HIGH MONDAY NIGHT

The Senior class gave a party at the high school Monday evening for the purpose of consuming the hot dogs that were left over from the circus. Everyone present brought 15 cents, which was invested in lemonade and cake, which was served after the dancing in the early part of the evening. The balloons that were left over were sold and the returns turned over to the general circus committee.

BOYS' UNLIMITED PLAY  
HALF MOON BAY TONIGHT

The boys' unlimited basketball team is to play Half Moon Bay tonight on the Half Moon Bay court. The teams are rather evenly matched and a closely contested game is expected. The boys lost to Morgan Hill last Friday, 18-9, but that is only their first game and they can make up for it when they play Morgan Hill on the latter's own court.

CHRISTMAS VACATION  
BEGINS COMING MONDAY

Just think, kids! Three whole weeks in which there will be no home work, no getting up at 7:30(?) and besides, Santa Claus coming around, all at the same time. Sounds like a fairy tale, doesn't it? Nevertheless, it's true. This year Teachers' Institute and manual Christmas vacation are combined, giving us three, instead of two, weeks' holiday vacation. Besides, it gives us plenty of time to get on the good side of "Ma" and "Pa" by chopping wood, and washing the dishes, and mowing the lawn.

GIRLS' UNLIMITED DEFEAT  
SAN MATEO HIGH, 16-12

After traveling to San Mateo in an uncomfortable rain last Friday our girls came home with the world in general looking very sunny. The reason for this was the result of their game with the Ma-

coettes. San Mateo started the game with a bang and made the first goal. South San Francisco scored one immediately after and tied the score. The teams were fairly evenly matched the first half and ended with a score of 8 all.

At the end of the third quarter our girls woke up to the fact that San Mateo was ahead, 10-8. Rallying, our girls finished the last quarter with marvelous playing and pushed the score ahead to the tune of 16-12, winning the game, all of which may mean the championship of the G. P. A. L. North Section.

The girls play San Jose today for the championship of the G. P. A. L. at Santa Clara.

INTERCLASS BASKETBALL  
HI-LOW SOPHS VS. 8 B'S  
An interclass girls' basketball game is to be played between the Hi-Low Sophs and the 8 B's tomorrow afternoon at 4 o'clock. This is the first interclass game to be played this semester and will no doubt be closely contested.

HIGH SENIORS PRACTICE  
FOR JANUARY PLAY

The High Seniors have been practicing for the play which they expect to present in January for the last few days and from the cast we may expect the play to go over big.

DECORATION DON'TS  
ISSUED BY BOARD OF  
FIRE UNDERWRITERS

The Board of Fire Underwriters of the Pacific is sending out warnings to the people of the dangers of fire in homes that will be decorated with Christmas greens, according to Fire Chief Ben H. Truax. The underwriters' association has issued five "don'ts."

Do not decorate your Christmas tree with paper, cotton or any other inflammable material. Use metallic tinsel and other non-flammable decorations only, and set the tree securely so that children, or others, in reaching for things cannot tip it over.

Do not use cotton to represent snow. Asbestos fibre or powdered mica is a good substitute.

Do not use candles. The records will show that many lives are lost because of their use. Electric lighting systems, properly installed, avoid this danger.

Do not permit any sort of decorations near gas jets.

Do not allow trees to remain inside of buildings after the holidays. The tree itself ignites readily when the needles have become dry.

# Extra \$50 Prize Is Added to Enterprise's Large List of Gifts

## ANNOUNCEMENT EXTRAORDINARY \$50

### To Be Given for Work Done in Next Ten Days

A cash award of \$50.00 will be given to the candidate scoring the greatest number of points on subscription turned in before the close of the first period, December 20. All subscriptions turned in between 8 a. m. December 11 and 11 p. m. Saturday, December 20, will count on this special offer.

All candidates start on even terms at zero. Every candidate will have an equal chance at this special prize. Points are scheduled as follows:

Points	Points
1 year subscription credits. 1	4 year subscription credits. 9
2 year subscription credits. 3	5 year subscription credits. 12
3 year subscription credits. 7	6 year subscription credits. 16
A half year subscription will count 1/2 point.	

### New Subscriptions Will Count Double Points

This award in addition to all other prizes, cars, radio and cash prizes. The \$50 special prize will be given for points made between Thursday, December 11, and Saturday, December 20.

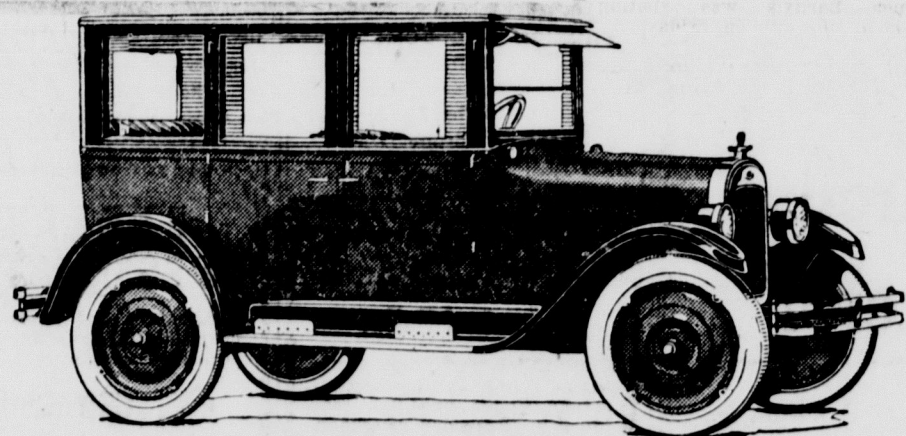

All first period credits, club credits and all, are given regularly on subscriptions turned in up to and including December 20, as well as credit points on the special offer. This offer does not interfere in the least with winning the prize you started out after; in fact, it will help you, for while you are winning an extra \$50 for Christmas, you will be piling up a total of credits that will carry you to the top of the list for the final dash for a car.

This special prize offer and the first period will close at 11 o'clock Saturday night, December 20. These are absolutely the biggest days of the entire campaign—just a golden opportunity, that's all.

**Why Hesitate, Why Hold Back When You Can Be Paid So Well for Few Days' Work? Think of Making Up to \$11.50 for Yourself; "Everybody Wins"**

The power of decision is all you need to make you win any one of the ten grand capital prizes in the Enterprise gift distribution which you might desire.

If you really knew you could own one of these handsome prizes—the \$1150 De Luxe sedan or the \$638 Superior touring car—which the Enterprise will award in the next few

weeks, you would pull off your coat, roll up your sleeves and hustle day and night, wouldn't you?

### You Are on Even Terms

Then why hesitate? You are on even terms with everyone else. You have equal opportunity. Conditions are the same for all. The same credit schedule works for you that is in effect for others. There is no handicap unless you make your own.

What is holding you back? "Self-reliance" is all you need. It is what is keeping you from being a motor car owner right this minute. If you had an ounce of it nothing short of a terrible misfortune could keep you out of the race.

Do you want a motor car? Then enter this campaign today, make a flying start towards the gift you want. A little work now will count for more than all the regrets in the world after the race is over.

## Less Than Ten Days to Win \$50 Special Prize

### Now Is Time for Reader to Help Their Favorite; More Credits Given Now Than Later, and Subscriptions Count on \$50 Special Offer.

Now is the time for readers to help their favorites in the big Enterprise \$3,000 "Everybody Wins Something" gift distribution. Your subscription given now means more credits for your favorite than it will later in the campaign. And credits win. Unlike most campaigns, the credits in The Enterprise campaign decrease as the campaign progresses. There will be absolutely no bonus credits other than those already published and announced in the schedule.

Remember—big credits end Saturday night, December 20th, at 11 o'clock and the extra, special offer ends on the same date, December 20th, at 11 o'clock.

**Cash in on Big Credits**  
By keeping up a fast pace until December 20th, candidates will be able to cash in on the "Flying Start Offer" which includes 100,000 extra credits on

every \$12.00 worth of subscriptions. There is, too, the special "First Subscription Coupon" for 20,000 free credits and 250,000 extra credits if the candidate produces three one-year subscriptions or equivalent the first week after accepting nomination.

Eleven p. m., Saturday, December 20th, marks the end forever of the big credits, and the \$50 special cash offer. There will be no time later in the race when subscriptions will count for so many credits as they do now. Those who do their best now will have a decided advantage over the candidate tardy in getting started.

### Campaign Plan Easy

There is one part of the campaign plan that is especially pleasing to all candidates, and that is that the awards are offered for meritorious work in obtaining subscriptions for The Enterprise. Every active candidate is guaranteed at the very least a cash commission of 20 cents on every dollar he or she turns in to The Enterprise in subscriptions. For those who do better than the rank and file there are purses of gold and silver and for those who are leaders, who demonstrate the best business-getting ability for The Enterprise, there are big, beautiful cars valued at \$1150 and \$638.

**Extra Prize This Week**  
With the offering of the special prize of \$50 in cash, it is only natural to assume that new leaders will soon be seen in the credit column of The Enterprise campaign. Haven't you wished that you had just a few

more dollars for Xmas? This \$50 cash offer will be awarded to the candidate scoring the highest number of points on subscriptions during this current week. Perhaps there is some thing you would like very much to have but just haven't had the money or felt that you couldn't spare enough to buy it just yet. Well here is your opportunity to get that very article with just a little effort as well as piling up thousands of credits toward that car of your choice.

Remember that the winning of this special prize will not in any way interfere with the winning of one of the other prizes. It is simply an added gift that The Enterprise wishes to distribute to its loyal supporters.

An entirely new candidate could, with a little effort get busy right now and win this prize and at the same time put himself or herself in line for one of the larger prizes by the end of this period. All are starting even on this added offer, which closes December 20th, Saturday night. Fifty dollars in ten days, \$5 a day, not so bad is it?

The public is getting interested in this campaign—really interested. In spots the interest is quite heated. And when you come to think of it, why shouldn't the public be interested? We all get excited over a game of ball, or bridge, or mah jongg, and why shouldn't we get interested in a game where the stakes run up to \$1150 and \$638, with other lesser stakes and commissions. It is interesting to watch the campaign grow, isn't it?

"I don't like The Enterprise this and that and the other thing," said one non-subscriber complete your first club, you start on your second.

Subscriptions may be secured anywhere. Candidates are NOT restricted to their own district. You can obtain subscriptions from friends and acquaintances in any district, any town, city or state.

The \$12.00 does not have to be turned in all at one time. You can turn in the subscriptions as you secure them. Accurate record is kept at the Campaign Department. The 100,000 extra credit ballots are issued at the close of the offer for the EXTRA votes due.

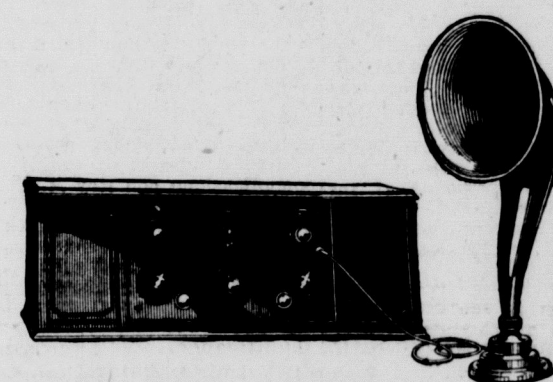

This 100,000 offer is the biggest and best offer that will be made.

If you have entered the campaign, here is your chance to make a fine beginning, and you have just started, let this build your way to success. Vote offer put you in the lead.

POSTAL CLERKS ASK  
SUPPORT OF MEASURE  
TO INCREASE SALARY

Employees of the local postoffice  
are urging the people to support  
the Kelly-Edge bill which pro-  
vides for an increase in salary of  
\$300 per year to postal employees.  
This bill was passed in the last  
congress by a vote of 73 to 3 in  
the senate and 322 to 6 in the  
house but was vetoed by Presi-  
dent Coolidge. It comes up in  
the present session of congress  
under the head of unfinished busi-  
ness.

The postal employee is produc-  
ing almost three times as much  
per man as in 1907, when the  
first real attempt to give to post-  
office clerks a law defining sal-  
aries and a regular progression  
to the higher grades upon sat-  
isfactory service was made, it is  
pointed out. Yet, contrary to the  
logic of economists that wages  
must come out of production and  
"more work means more pay," he  
is receiving actually about 30 per  
cent less than in 1907.

Local people can evidence their  
backing of an increase in postal  
salaries by writing to their rep-  
resentatives in congress.
